

SUMMARY

I am a full-stack developer passionate about coding and creating web applications. I have learned multiple coding languages and have developed projects in React, Ruby on Rails, HTML, CSS, and Javascript. I have strong experience in pair programming and working remotely with diverse teams. I am also able to ramp up quickly and efficiently.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3

Back-End: MySQL, Ruby, Ruby on Rails

Tools & Methods: Git, GitHub, Bitbucket, Heroku, Netlify, Mobile/Responsive Development, Chrome Dev Tools, MVC

Professional: Remote Pair-Programming, Teamwork

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Full Stack Web Developer

Remote
May 2021 – Present

Budget App – A mobile web application where a user manages their budget: have a list of transactions associated with a category, so that the user can see how much money is spent and on what.

- Built with: (Ruby on Rails, Postgresql, Bootstrap, HTML/CSS)
- [View Repository on GitHub](#)

Doctor Appointment App – Doctor Appointment is a React frontend application I built for booking an appointment with a doctor. This responsive application allows users to load, create, and delete doctors and appointments.

- Built with: (React, Redux, Ruby on Rails, Postgresql, and Bootstrap)
- [View Repository on GitHub](#)

Recipe App – The Recipe app keeps track of all your recipes, ingredients, and inventory. It will allow you to save ingredients, keep track of what you have, create recipes, and generate a shopping list based on what you have and what you are missing from a recipe. Also, since sharing recipes is an important part of cooking the app should allow you to make them public so anyone can access them.

- Built with: (Ruby on Rails, Postgresql, and Bootstrap)
- [View Repository on GitHub](#)

EDUCATION

MICROVERSE

May 2021 – August 2022

Remote Full Stack Web Development Program, Full Time

- Learned more than 5 coding languages in only 8 months
- Developed multiple projects with Ruby, Rails, JavaScript, React, and Redux
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development
- Developed skills in remote pair programming using GitHub, industry-standard git-flow
- Developed communication and collaboration skills with international remote developers through daily stand-ups

PUNJAB UNIVERSITY GUJRANWALA CAMPUS

BS-Information Technology

October 2015 – June 2019

- Learned DSA, Database Systems, OOP, ERP, SQA, and Digital Logic Design
